

STRASBURG STOCK & BOND AUCTION NO. 242

MAIL BID ONLY SALE

CLOSES WEDNESDAY, NOVEMBER 10, 2004 AT 12:00 NOON SHARP!

We buy, sell, and auction the very best in Antique Stocks and Bonds,
Autographs, Banknotes, Coins, Historic Americana, and Vintage Photography

TERMS OF SALE

1. A 15% buyers charge will be added to the hammer price of each lot purchased.
2. All bids are per lot as numbered in this catalogue.
3. Bids less than 60% of the estimate **will not be accepted.**
4. We reserve the right to withdraw any lot prior to sale.
5. All successful bidders shall be billed for postage, handling and insurance.
6. **We cannot be responsible for the loss of any merchandise shipped outside the United States.**
7. **All framed items are shipped at the purchaser's risk.**
8. R.M. SMYTHE reserves the right to **reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.**
9. A R.M. SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of R.M. SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
10. United States coins and currency will not, in conformity with law, be opened at less than face value.
11. No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids below the low estimate will not be reduced. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer. "Cut" bids (bids at less than the regular bidding intervals) will be accepted, but they must be no less than half of the regular interval over the previous bid. Each bidder may make only one "cut" bid per lot, and if they are out bid, they may make no further bids on that lot.
12. In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.
13. **All bids must be in whole dollar amounts. Percentage increases will be rounded up to the nearest dollar.**
14. **Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.**
15. No minors may participate in our sales. **Agents bidding on behalf of others will be held liable if their principals fail to make payment.**
16. Payment for purchases is to be made by cash, check, money order or bank wire upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. **Credit cards will not be accepted for auction purchases.**
17. Title does not pass until payment in full is received. R.M. SMYTHE reserves the right to await clearance of any check before making delivery.
18. If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by R.M. SMYTHE in procuring judgement shall be borne by the defendant. The signer of a R.M. SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City or the New York State courts as R.M. SMYTHE alone shall elect. The participant in a R.M. SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
19. R.M. SMYTHE may reopen the bidding on a lot under the following circumstances: 1) R.M. SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a

protest is made after the hammer has fallen but before bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the auctioneer.

20. In the event of dispute, the auctioneer's decision is final.

21. New York State & Pennsylvania State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.

22. No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

23. In the event of unsuccessful litigation the plaintiff shall pay R.M. SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

24. The same protections applicable to R.M. SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

25. R.M. SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

26. All accounts are payable to R.M. SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

27. **All material in this catalogue is unconditionally guaranteed to be genuine. We will not knowingly sell any item that has been "repaired", "restored", "processed", "cleaned", "pressed", or "conserved" in any way without disclosing those facts to the potential buyer.**

28. Agents who bid from the floor for clients should examine the lots carefully, and are reminded that no lots may be returned by floor bidders except for non-authenticity. Lots described as "repaired", "corroded", "holed", "whizzed", or like damage may not be returned for any reason except non-authenticity.

29. Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Third-party graded coins (i.e. PCGS, NGC, ANACS, ICG) are sold as is, **no returns.** Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it. Lots sold with the proviso 'sold as is' cannot be returned. Lots valued primarily for their bullion content may not be returned.

30. In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify R.M. SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

31. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

32. The placing of a bid shall constitute **full acceptance of the fore-going terms and conditions of sale; all bid sheets must be signed by the responsible party.**

33. A \$100 charge will be applied for any check that fails to clear.

Scripophily Condition Terminology

Unlike coins and paper money, the grading of stocks & bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair – A certificate with extreme handling, fold splitting, stains, small pieces or tears.

Fine – Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) – The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) – Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) – A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.

Extremely Fine+ (EF+) – As made, or nearly so.

“*”

following a grade means there are no cancellations.

(np) indicates the item is not pictured.

The Society was a prestigious fraternal organization whose membership was restricted only to those individuals who had arrived in the Far West prior to the end of the California gold rush. Housed in an imposing building on B Street in downtown Virginia City, a block north of the Storey County courthouse, the club maintained opulent meeting rooms, billiard and card rooms, a library and extensive museum. All this was lost in the tragic fire which swept through Virginia City in October 1875. These denominated promissory notes were issued in an attempt to raise money to reconstruct the society's hall, but as the Comstock mines began to decline in the late 1870s this organization slowly dwindled away.

In 1902 J.P. Morgan formed the International Mercantile Marine Company with an investment of \$120 million, purchasing the Red Star Lines, the Mississippi, and the entire capital stock of the White Star Line, a British Company. The most famous member of the International Mercantile Marine fleet was the White Star Liner "Titanic". The Titanic was the largest liner the world had seen at 46,328 tons. On her maiden voyage bound for New York she struck an iceberg shortly after Sunday dinner, April 14, 1912. The greatest of all liners became the greatest disaster in maritime history.

Global Commerce in Certificates

Something new has been added, and we hope you will find it interesting. While we have always had an international offering in the mail-bid sales, it has not been as well developed as the U.S. section, primarily because our audience of mainly American collectors has not previously had great interest in these offerings. Over the years, lack of interest led to a diminished effort in this area, but now we are presenting a somewhat re-structured format, and we think there are excellent reasons for American collectors, and for others around the world, to have another look at these splendid examples of world history. During these years, the world has grown smaller, and the ability of a wider audience to see the material brings a new dimension to the objects which define the history of many countries.

First of all, these certificates are very reasonably priced in terms of what has happened to the leading issues in many markets. The scripophily market has had years to settle down, and sparse interest has resulted in lower prices for some marvelous items. Supplies of these pieces are not great, and thus rarity begins to express itself as a market factor. In a world in which news from everywhere is known instantly, there is a greater reason to delve into the history of far away places, and to study the financing practices of long ago. Indeed, at the college level, there is excellent raw material here for the study of international economics and investment banking, to investigate the practices used in many countries to accomplish financings. In many of those areas, there are new needs for capital, and today's international capital market has begun to concentrate on those opportunities. Similarly, the great movements of people around the world, to new homes in distant lands brings its own demand for objects from home.

International financial constancy is apparent, too, as we look at the denominations of the certificates. Will we see the return of the Hungarian pengo, for instance? And when we think about the global community, we need to consider global finance, of course. There are Russian loans denominated in sterling, and spectacular Chinese bonds for which the underwriters were located in Western Europe, and even included J. P. Morgan in New York! How far have we come?

To enhance the section, and as a reminder of the tremendously varied personalities on the world stage, we have included some images with the catalogue descriptions. As citizens, we need to know more about world history, and as collectors, there is tremendous fun in experiencing again and in a different form, the names and places we may have heard in high school or college, and connecting them to the new ideas of this new century. The dramatic shift in the political world from centrally managed economies to democratically based free market economies brings with it a necessity to understand the past. All of this is available at very modest cost, and as a way of traveling and learning, it is hard to imagine a hobby or collecting area with more possibilities. We wish you good reading, and great enjoyment.

An exceptional work of art depicting the White Cliffs of Dover, the French coastline, and a classic vignette of a cross-section of the tunnel under water showing a locomotive with passenger cars chugging towards the French side. Surrounded by a magnificent border topped by the Goddess Britannia and Marianne (the woman symbolizing France) holding their respective flags and holding hands. **(\$300-500)**

The Channel Tunnel nicknamed "The Chunnel" now links Britain to mainland Europe for the first time since the ancient land bridge eroded 10,000 years ago. To date this is the biggest construction project Europe has ever undertaken. However history tells of earlier attempts such as this grandiose scheme from 1892. The dream of a "Chunnel" goes back to before 1802, but this is the only available antique stock celebrating this monumental engineering project.

- 6055 Consolidated Annuities** (Great Britain) 1804. *Bank of England. Joint Stock.* 3% Annuities. On laid paper. **VF+.** **(\$90-140)**

A postcard of the Bank Volunteers Corp having dinner is included. This is one of the famous 3% consols that existed from the 1750s all the way to the present, although all or some were refunded into a slightly lower rate security by Chancellor of Exchequer Goschen in the late 19th century. They are perpetuities, without a redemption/maturity date, a concept that never migrated from Europe, where it was common, to the United States. They promised only a stream of income, so it was easy to determine the yield by dividing the annual income stream by the current market price. In the '70s when the United Kingdom was having a lot of trouble, they got down to the 'teens in price, for some handsome double digit yields.

- 6091 South Sea Company** Feb. 26, 1714. Handwritten document on laid paper. Text reads "I doe hereby impower Jo. Humphrey to accept for me thirteen hundred pounds stock which transferred to my account on the books of the South Sea Company and his receipt shall be your discharge for the same". Professional restorations. Apparent **VF+**. **(\$150-250)**

The South Sea Company was founded to support the already existing East India Company in trade with overseas colonies. Shortly after the formation of the new company, speculators moved in on the shares and drove the price up to many times their normal value. Rumors of great discoveries of gold by the first ships underpinned the speculation which later became known as the "South Sea Bubble." The bursting of this bubble led to widespread distress, and a whole new structure of the English economy. The South Sea Bubble was the first great speculation in joint-stock company history.

- 6092 South Sea Company** July 22, 1722. Handwritten document on laid paper. Text reads "Pray pay Mr. Henry Heare or order dividend on Four Thousand Nine Hundred Eighty Two Pounds Fifteen Shillings of South Sea Stock Dividends..." Professionally restored. Apparent, VF+. **(\$150-250)**

1870 was a year of tremendous unrest and violence in Europe. The Franco-Prussian War 1870-71 signaled the rise of German military power and imperialism. During this time the prominent citizens of the Netherlands founded a society in order to secure stability and protection for their own country. Organized on a semi-military basis, thousands of citizens became members. As part of their service, the members stayed at military encampments once each week where they received weapons and combat training.

Winter Palace

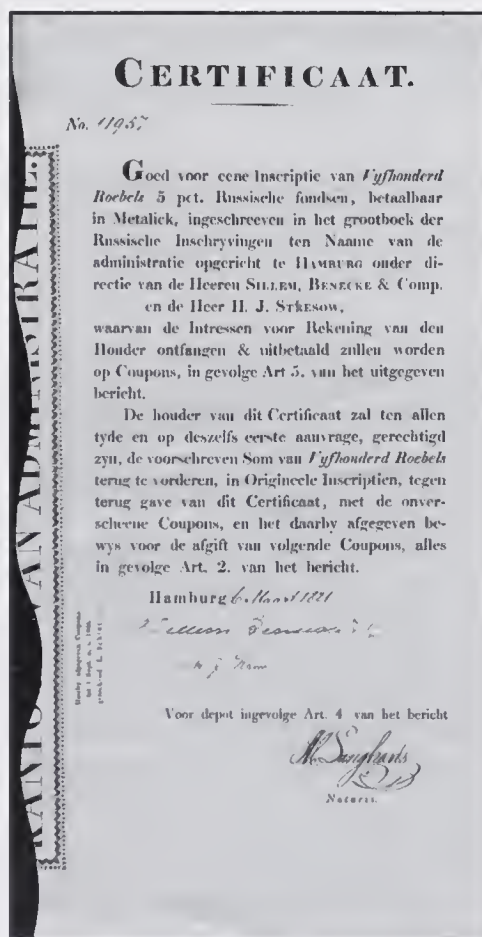

now we find that the hated western capitalists of earlier years are the desired investors for the future. Thus, we now need to look once more at the past to see what it will reveal of interest for today's challenges. We look back to a time when French was the language of the upper class, and we observe once again financial product innovation which was the foundation of earlier fortunes. Exploring these old stories will definitely hold your attention.

Among the objects offered here are numerous specimen bonds, the first we have ever seen. These have come from a Russian immigrant whose story follows. This man was working in a large Russian bank many years ago. At a time, the manager of the bank found these specimens and with their intimate connection to capitalism, and decided they should be destroyed at once. Our man pleaded against their destruction, and managed to acquire them for himself. He recognized their importance as a collectible, and brought them to New York, where they have helped him start a new life.

Empress Dowager Tsu Hsi, anxious to rid China of the well-armed Europeans who were threatening to carve up her country to take advantage of its natural resources and control all trade, backed a rebel group known as the Fists of Righteous Harmony. These rebels were referred to as 'Boxers' by the Europeans because they practiced martial arts (and believed they had magical powers that would protect them from bullets). In early 1900, the Boxers roamed the countryside slaughtering missionaries and their converts. With their growing ranks, the Boxers entered Beijing and attacked an enclave of foreign diplomats and their families. Just as the foreign defenders were on the brink of collapse after two months of fierce battle, an international relief force came to their rescue. The international force looted Beijing and the Forbidden City, but the Empress Dowager escaped dressed as a peasant. After the Russian, British, German and American forces, among others, crushed the Boxer Rebellion in 1900, China was compelled by the 1901 Boxer Protocol to submit to numerous demands by the European and American powers including payment of a huge indemnity for the losses they had suffered as a result of the rebellion. This Gold Bond was part of the Chinese Republic's effort to raise funds to pay the indemnity. A dramatic piece of Chinese history!

SPAIN**6364 Banco Nacional de S. Carlos (Spain) 1782. Share of 1000 Real. Spain personified at top with crown, squirrel and lion, with shield under her elbow, medallion of Carlos III Pater Patriae at left hands shaking Fides Publicas at the right. Mercury with symbols of Commerce at bottom. EF.***

(\$1,500-2,500)

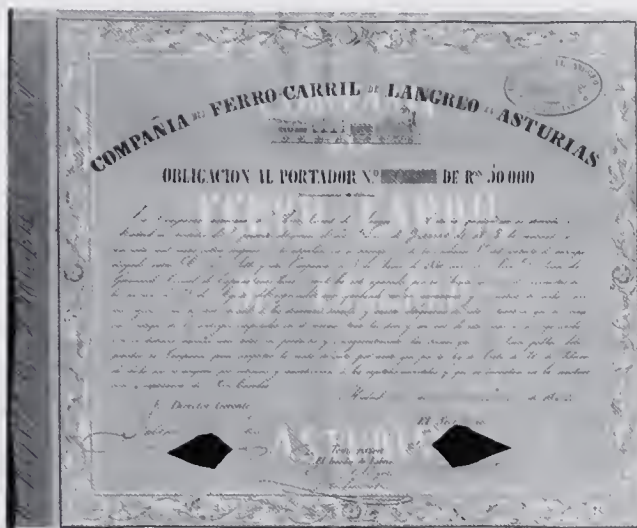

The Bank of San Carlos was established by King Carlos III in the 1770's as part of his scheme to revitalize the Spanish economy by creating a source of credit for Spanish industry and agriculture. The King also intended that this bank should handle the Spanish government's affairs. Declining shipments of gold and silver from North and South America limited the capital paid in by the government, as well as its deposits. Private capital payments also proved disappointing. In consequence, while the bank issued notes and paid its way, it was not able to do all the things its founder intended. Extremely Rare.

CUBA

At the time of the successful campaign of Fidel Castro to become the leader of Cuba, John Herzog was a young trader in an over the counter trading firm. Among the stocks traded at that time was Cuban Venezuelan Oil, and as the news was reported, the price of the stock rose from under fifty cents to over a dollar and a half, a big move for those days, and on big volume. At the time of the Cuban missile crisis, Herzog made an entry to his diary, in great fear, and this was reported in a press story on the anniversary of that event. And now we have the future to contemplate, as citizens, and as collectors.

Empress Dowager Tsu Hsi, anxious to rid China of the well-armed Europeans who were threatening to carve up her country to take advantage of its natural resources and control all trade, backed a rebel group known as the Fists of Righteous Harmony. These rebels were referred to as 'Boxers' by the Europeans because they practiced martial arts (and believed they had magical powers that would protect them from bullets). In early 1900, the Boxers roamed the countryside slaughtering missionaries and their converts. With their growing ranks, the Boxers entered Beijing and attacked an enclave of foreign diplomats and their families. Just as the foreign defenders were on the brink of collapse after two months of fierce battle, an international relief force came to their rescue. The international force looted Beijing and the Forbidden City, but the Empress Dowager escaped dressed as a peasant. After the Russian, British, German and American forces, among others, crushed the Boxer Rebellion in 1900, China was compelled by the 1901 Boxer Protocol to submit to numerous demands by the European and American powers including payment of a huge indemnity for the losses they had suffered as a result of the rebellion. This Gold Bond was part of the Chinese Republic's effort to raise funds to pay the indemnity. A dramatic piece of Chinese history!

6530 Jewish Colonial Trust 1901. #46830. One share.
Blue with a red seal. Four vignettes in the corners including the Western Wall, farmers and industrial scenes. Underprint of a map of Palestine. This company was founded by Jews who desired to further colonize and develop Palestine. A historic and important certificate. This company became Bank Leumi. Light soiling, VF. (\$200-300)

One of the very handsome and historically important certificates, the story of the Jewish Colonial Trust is extremely interesting. Founded in 1899 by active Zionists, it was the first formal attempt by Jews to create an enterprise to promote the colonization and development of Palestine.

The founders included many important Jewish men, foremost among them Dr. Theodor Herzl from Vienna and David Wolffsohn from Cologne, the first and second presidents of the World Zionist Organization.

Share capital of £2,000,000 was divided into 100 Founders shares of £1 each and 1,999,900 Ordinary shares of £1 each. All Ordinary shares originally had coupons at the bottom of the certificate; later these were on separate sheets.

The certificate contains text in English and Yiddish, with a few words in German. Handsomely contrived, there are four beige vignettes, one in each corner, of the Western Wall, a farmer sowing seed, a factory scene, and a wharf scene. Printed in blue and black with a red embossed paper seal, the certificate is extremely impressive in appearance.

The first shares were issued in 1900, and most of the certificates are for a very small number of shares. Over 100,000 supporters of the Zionist movement, largely in Russia and Eastern Europe, purchased the shares. Consequently, there are many small denomination certificates; only 500 registered shareholders held more than 25 shares each, and these large size certificates are comparatively rare.

In its early years, the Company served as the financial instrument of the Zionist Organization. The political aims of the Zionist Organization proved unattainable during the first two decades of the twentieth century, and consequently the Company was not in a position to play the part its Founders had intended for it. Instead, it took an active part in the development of Palestine through its subsidiary, The Anglo Palestine Company, which functioned as a bank in Palestine. This company grew slowly over the years, and its name was changed in 1935 to the Anglo-Palestine Bank, which, from small beginnings, had grown into the principal banking organization of Palestine. In 1934, it was decided to discontinue the banking business of the Jewish Colonial Trust, and the Company became a holding company with almost the whole of its capital

invested in its subsidiary. After the establishment of the State of Israel in 1948, it was decided that the business of The Anglo-Palestine Bank, Israel's main bank, should be carried on by an Israeli company; thus Bank Leumi le-Israel was incorporated in Israel and acquired the assets and liabilities of The Anglo-Palestine Bank in exchange for Bank Leumi shares issued to the Jewish Colonial Trust. In 1955 it was felt that Bank Leumi should cease to be controlled by a company incorporated outside Israel, and accordingly, over 95% of the Trust's holding of securities in Bank Leumi was transferred to a new Israeli company, Otzar Hityashvuth Hayehudim in exchange for shares in Otzar which were distributed to the holders of Ordinary shares of the Trust. It was hoped that some of the enormous number of then

missing shareholders would gradually come forward to claim their entitlements, upon their immigration to Israel from Eastern Europe. Accordingly, a trust was established in Israel that held shares in Otzar to which those missing shareholders were entitled. Persons giving their original shares, or showing proof of ownership of the original Ordinary shares in the Trust received their Otzar shares as well as accrued dividends. Since 1955, more than 4,500 people have received their entitlements.

In a letter dated May 23, 1980, the Trust announced its intention to maintain itself as an organization but to pay out the holders of the Ordinary shares with 19 shares of Bank Leumi for each Ordinary share. This exchange may be made, and the original Ordinary shares will be returned to the holder. Bank Leumi had an approximate market in Israel of 25¢ per share in early 1981. Inquiries regarding redemption of Trust certificates should be sent with a photocopy of both sides of the certificate to: Otzar Hityashvuth Hayehudim, 17 Kaplan Street, Tel Aviv 64734, Israel.

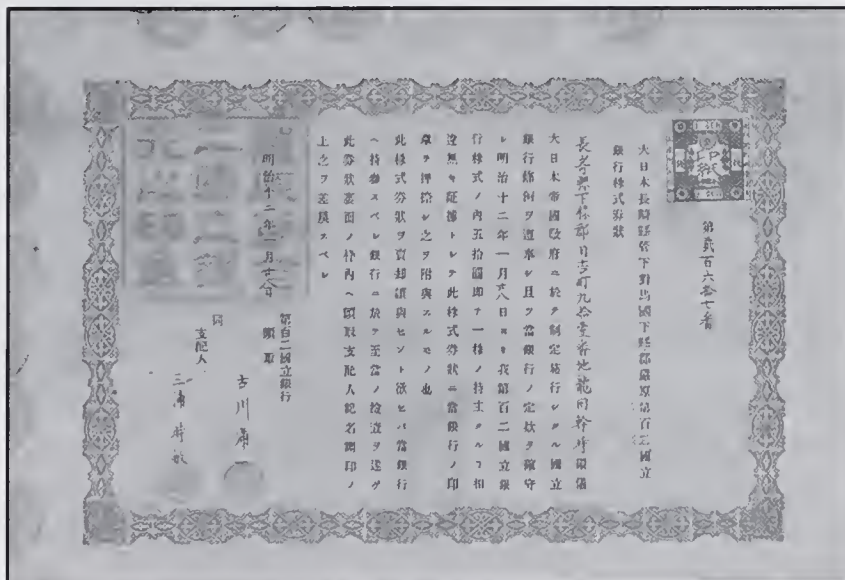

There are few companies, which, in so short a time, have played so important a part in the lives of their country and their citizens. The information in this report is taken from the letters to holders of Ordinary shares dated September 30, 1955, and May 23, 1980, and from several collectors. We acknowledge this assistance with many thanks.

The first stock exchange in Africa was founded in 1817 in Cape Town. The New Mercantile Exchange was founded shortly thereafter in 1819. The exchange was organized to engage in trade and to construct a stock exchange building, and was very successful as the Cape of Good Hope was a major shipping port. By the end of the 19th century the exchange lost much of its importance as diamond discoveries moved the focus to Johannesburg. The building constructed by the New Mercantile Exchange was demolished in 1890.

HINTS FOR BIDDING IN A MAIL BID AUCTION

Bidding in auctions can sometimes be a real challenge, but mail bid auctions are real opportunities for collectors to acquire items that may be hard to obtain any other way. Experience has taught us ways to minimize frustrations and maximize results, and we would like to share some of those ideas with you. Here are the questions we are asked most often and some of the suggestions we have made to bidders. We think they will save you time and money, as well as help you win lots you might otherwise miss.

"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."

Lots are available at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics or scripophily than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't be there, here is how we can help you get a better idea of what you are bidding on:

1) Call us, and we will be happy to have one of our experts describe any lot you ask about.

2) We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge. We can also scan items and email them to you.

3) If you have established credit with us we may be able to ship lots to you for direct viewing.

Please realize that requests for phone assistance, for copies or for shipping lots directly to you must be arranged well in advance of the closing date of the sale, and that you may be charged a nominal fee.

"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."

There is an easy way to solve this problem. It is called a "limit" bid sheet. Let's look at an example. Mr. Smith collects Confederate notes, and he sees that there are over thirty lots he would like to buy. His budget is \$1,000, but the estimates on the thirty lots he likes add up to well over \$5,000. If he bids on all thirty he might win them all and exceed his budget. To be safe, he bids on only ten, and he wins only one lot for a \$100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet. Here is how it works:

Mr. Jones has the same collecting interests as Mr. Smith. He has the same \$1,000 budget. Mr. Jones bids on all thirty lots he is interested in. He writes at the bottom of his bid sheet "Please limit my total winning bids to \$1,000." Every time Mr. Jones wins a lot we keep track of his total spending. When the total reaches \$1,000, we will stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

There is a special advantage to limit bidding in a mail bid sale - the bids can be listed in order of your preference. List the lots you want most first.

"I see that there are two similar lots in the sale. I want only one of them, not both of them."

This problem can be solved with an "OR" bid. Let's assume that Lot #101 and Lot #102 are identical. You wish to bid \$200 on either one, but you don't want both. Write the following on your bid sheet and you can accomplish your goal:

"#101 OR #102 at \$200"

If you win Lot #101 we will cancel your bid on #102.

"What if there are three similar lots and I only want one?"

"#101 OR #102 OR #103 at \$200" will work perfectly.

"When I don't win a lot I often seem to lose it by just a few dollars. It almost looks as if someone knows what I am bidding on, and they bid a little more. What is going on?"

Every auction house has its own way of closing a mail bid sale. Some houses will tell bidders exactly how much the highest bid is at any given moment right up until the end of the sale. We feel this is unfair, because anyone who is able to get through by phone near the end of the sale can top anyone else. If auctions are closed in this manner clients who are "friends of the house" have a distinct advantage and can top other bidders at the end. Those who bid early are at a disadvantage. To eliminate this problem we don't give out any information on what the highest bid is. We advise bidders to bid exactly as much as they are willing to spend on a lot, and where possible, if they win a lot we reduce their bid to an increment just above the next highest bidder (there are exceptions - please see the Terms of Sale).

We think this method is fair to everyone involved, but it does result in bidders sometimes losing lots by \$1, or \$5 at times. If Mr. Jones bids \$100 on an item and Mr. Smith bids \$101, we have no choice but to award the lot to Mr. Smith for \$101.

"I bid \$30 on a lot that was estimated at \$100 and I didn't get the lot. Later, when I got the Prices Realized, the lot was reported as unsold. Why didn't I get the lot?"

The Terms of Sale state that bids less than 60% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "...regular market value..." of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.

We hope these questions and answers have been helpful. If you have any comments, suggestions, or further questions concerning Smythe auctions, please feel free to call us at 800-622-1880, or 212-943-1880.
